0616 is going to be one of the great bulls of the breed. He is a moderate size (weighing just over a ton off mountain range as a 4 year old), very correct, extremely typy bull. His sons in the 2004 sale were the high selling sire group. Rod Swanson is calving his first-calf daughters this spring. He reports that they are extremely gentle, have tremendous udders and have all calved unassisted. We believe in this bull. We bred 50 cows to him 2004 and will breed 150 cows to him in 2005.

- Ranks in the **top 1% of the breed for calving ease and light birth weight**
- Ranks in the **top 20% for weaning weight, yearling weight and daughter's milk production**
- Average on all carcass traits except trimness - **takes away backfat**
