

REFERENCE SIRES

0616 is one of the great bulls of the breed. He is moderate size (weighing 2050 pounds coming out of the cows as a 5-year old), very correct, extremely typy bull. Between Rodger Swanson and us, we have retained 67 daughters. They are near perfect cows and have a 102 WR on all calves. We believe in this bull. We bred 150 cows to him last year and will breed at least that many again in 2006.

- Ranks in the **top 1% of the breed for calving ease and light birth weight.**
- Ranks in the **top 15% for weaning weight and yearling weight**
- Ranks in the **top 30% for daughters milk production.**
- All bulls averaged **104 WR at KCK and 106 WR at Rod Swanson's.**
- Average on all carcass traits except trimness – **takes away backfat.**
- **Subtracts cow frame size and weight.**

You are really going to like the type and style of the 9K sons. They are very stylish, heavy muscled bulls. His dam is a great cow with 8 natural calves at 103 Weaning Ratio. We have retained 36 daughters but none are currently in production.

- Ranks in the **top 15% for weaning weight and yearling weight.**
- Breed **average for daughters milk production.**
- Based on the steers we have fed, he **adds more than 1 full inch to Ribeye Area.**

4915 is a cross between two of the best light birth, maternal, high growth lines in the Angus breed – EXT and Traveler. The sons are a very nice pen of bulls that you will like. We have retained 16 daughters, but none are currently in production.

- Ranks in the **top 10% of the breed for calving ease, weaning weight and yearling weight.**
- Ranks in the **top 25% for daughters milk production.**
- Ranks in the **top 15% of all sires carcass tested for ribeye area.**
- Ranks in the **top 35% of all sires carcass tested for marbling.**

5409 is a range cowman's kind of bull. He produces moderate size, heavy muscled, high volume cattle that will go out on the range and make a living. His dam, **Nelle 2988**, was one of the great cows in the Angus breed. She produced 9 natural calves with 106 WR and 108 YR. As a 12-year old she sold in Sitz's 1999 cow sale for \$73,000. **5409** has 24 daughters currently in production. They are herd average for weaning weight. We will calve 49 daughters in 2006 and have retained an additional 26.

- Ranks in the **top 25% of the breed for light birth weight.**
- Only **high marbling** bull we know whose daughters are **easy fleshing.**
- Adds a **full one half marbling score** - 57% of his steers qualify for **CAB.**

ACC	.39	.61	.60	.25	.05	.25	.05	.05	.05	.05

We bought this good 12N calf from Kevin Mytty. This is his first calf crop. His dam, 906, a great Alliance 6595 daughter, sold in Edwards recent Dispersal Sale at \$58,000. 12N combines light birth, high growth, and early maturity.

- Ranks in the top 10% of the breed for calving ease and top 15% for light birth weight.
- Ranks in the top 20% for weaning weight and top 10% for yearling weight.
- Ranks in the top 15% for scrotal circumference.

High Valley 4c6 Ambush — Grand Sire of Sitz Ambush 10729

This is the second calf crop by the Ambush 10729 bull. They are useful cattle with a "ton of grow"

- Ranks in the top 10% of the breed for weaning weight.
- Ranks in the top 15% of the breed for yearling weight and daughters milk production.

This is the second calf crop by 7741. His dam is an excellent linebred Traveler daughter with 3 calves at 107 WR. Combine that with the Bando bulls off the top of the pedigree and he was something. We really liked this bull. He was killed by lightning while with the cows in 2004. Fortunately, we have a semen bank on him. We have retained 26 daughters, 8 to calve in 2006.

- Ranks in the top 10% of the breed for calving ease and 20% for light birth weight.
- Ranks in the top 4% for yearling weight.
- Ranks in the top 1% for scrotal circumference.

There is some "cow-power" behind this **368** bull. We bought what we thought were the two best light birth, high growth bulls in Connelly's 2004 Sale. This is one of them. This is **368's** first calf crop.

- His **Pathfinder** dam, 651, is **5/108, 5/107**
- His **Pathfinder** granddam, 937, is **10/115, 9/112**
- Ranks in the **top 15%** for **calving ease and light birth weight**.
- Ranks in the **top 1%** for **weaning weight and top 2%** for **yearling weight**.
- The **top growth sire** group in the Rod Swanson calves – **average WR – 108**.

GUARANTEE

The insurance companies have backed off, but **LEADORE ANGUS RANCH** guarantees the bulls in this sale. If you have a problem with any bull you purchase from us, call Carl Lufkin or Rodger Swanson. We'll do our best to make the deal right with you. We believe that every bull sold is a breeder by virtue of passing the Society for Theriogenology Breeding Soundness Examination (a copy of the results will be furnished with each bull along with the pedigree and brand inspection.) There are no bad disposition bulls in the sale. We have culled any "high-headed" or wild bulls. You can buy these bulls with confidence.

IN ADDITION: FIRST YEAR BREEDING GUARANTEE

All bulls selling for \$2000 or more will be covered 50% by **LEADORE ANGUS RANCH** if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

Fifty percent (50%) of the value of the injured bull, minus one-half the salvage value, will be given as a credit in a future sale. Salvage value, if any, will be split equally between **LEADORE ANGUS RANCH** and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2006.

Example 1: A \$5000 bull is injured and lost to use.

A credit of \$2500 minus one-half the salvage value will be given to the buyer.

Example 2: A \$2000 bull is injured and lost to use.

A credit of \$1000 minus one-half the salvage value will be given to the buyer.

Example 3: A \$1750 bull is injured and lost to use.

No credit is given. Buyer retains all the salvage value.
