57<sup>th</sup> Annual Production Sale

FRIDAY, MARCH 18, 2022

Selling 100 Yearling Angus bulls raised at 6,000-9,000 feet in elevation.  
1 PM | AT THE RANCH | LEADORE, IDAHO

# Dear Friends and Fellow Cattlemen,

It is our great pleasure to welcome you to our 57th annual production sale at Leadore Angus. We want to thank all of our valued customers who have helped us make this program a success. We are excited to extend to you the opportunity of quality bulls at a competitive price. Without great customers like you, we would not be here doing what we love. Thank you for your support and friendship.

We are once again excited about this year's bull crop! We feel we have put together a very strong set of bulls that will not only help our customers raise great females, but also produce calves that will perform well on feed and on the rail. We develop our bulls at the ranch in Leadore, and are therefore able to closely assess their progress. In fact, our entire herd, including our bulls, are born and raised, year-round, on the ranch which lies at elevations between 6000 and 9000 feet, ensuring that natural selection is helping us eliminate problems with Brisket Disease. We work closely with Dr. Ben Abbey, D.V.M. on PAP testing, semen testing and general herd health consistently. This allows us to be sure we are producing a quality product that we feel will be beneficial to your program.

Our Leadore Angus crew understands the importance of suitable breeding for calving ease, accelerated growth and profitability. We have an appreciation for quality cattle that meet the needs of everyone from the producer to the customer at the grocery store. We also recognize the necessity of rough range bulls that can thrive under any range condition. Each time we work cattle we take careful consideration of inheritable traits such as feet, udder, fertility and longevity, culling everything that doesn't fit the program. Our desire is to be ever improving our herd so we can provide our customers with the best product possible. Finally, we would like to leave a legacy of fertile, right sized, long-living cattle that are able to work in real-life conditions.

It is our pleasure to talk cattle with you before or after the sale, as well as at the sale. We look forward to seeing you on sale day. As always, if you would like to look at the cattle, they are constantly available. Please contact Charlie Stipe 406-239-1696 to set up a time that works for you.

Thank you very much for taking time out of your busy lives to look at these incredible bulls.

Sincerely,  
Leadore Angus

Karl and Donna Tyler, Owners  
406-360-2438

Charlie and Rebecca Stipe, Manager  
406-239-1696

# FRIDAY, MARCH 18, 2022

Selling 100 Yearling Angus bulls raised at 6,000-9,000 feet in elevation.

LEADORE ANGUS

# Sale Information

## BULL DELIVERY

Bulls are delivered free to Idaho and adjoining states. \$100 per bull credit for buyers who pick up their purchases sale day. **Roundup Your Bulls on Sale Day and Receive \$100 CREDIT Per Bull!**

## MANAGEMENT PROGRAM

Last year we calved about 750 registered cows. We handle the cows just like commercial cattle. Cows never eat anything but grass and hay. Replacement heifers are grown out on USFS range up Little Eight-mile Creek. All cows with heifer calves spend the summer on USFS range up Railroad Canyon between Leadore and Horse Prairie. Mature cows with bull calves spend the summer at 18 Mile creek on the Ox Bow Ranch above Leadore. Young cows with bull calves are pastured on wet meadows along the Lemhi River. We start feeding the young cows in mid-December. We feed the mature cows a partial feed of alfalfa hay as a protein supplement. The cows are comingled for calving, then separated into age groups again with their calves. None of the females on the ranch ever receive any grain – this is a grass deal.

## GENETIC PLAN

Our focus at Leadore Angus is to develop cattle that are the Cowboy Kind. Our cows run in dry, rough country and if they don't hold up and perform in those conditions, they go down the road. Since 1941, our goals remain strong maternal traits, calving ease and growth. We want more, heavier calves walking on the truck in the fall. We select bulls that we feel have these qualities and the pedigrees to back it up.

## BREEDING SOUNDNESS EXAM

Pioneer Animal Health will examine each bull prior to the sale. Any bull not meeting the Society for Theriogenology standards will be culled. A copy of the Breeding Soundness exam will accompany the registration papers on each bull.

## BREEDING GUARANTEE

50% Coverage of Purchase Price for 60-Day Breeding Season. All bulls selling \$3,000 or more will be given 50% of the value of the injured bull, minus any salvage value, **IN A FUTURE SALE OR TOWARD A REPLACEMENT BULL IF ONE IS AVAILABLE.** All injured bulls must be diagnosed by a veterinarian. Please contact us as soon as possible should an injury occur and prior to the injured bull being sold for salvage. Those injuries include broken penis (ruptured penis), broken legs, stifle and disposition. Leadore Angus does not cover cuts, illness and items out of our control. All claims must be made by September 1, 2022. This does not include death, mismanagement or neglect. Nor does it include injuries that occurred prior to breeding season if your bull is turned out with other bulls. A copy of the sales receipt must be received by Leadore Angus to receive proper credit.

**\*Mortality Insurance available for purchase on the day of the sale.**

## HEALTH PROGRAM

Our health program is aimed at prevention. We vaccinate at branding with 8-way Clostridium and modified live IBR-BVD-PI3-BRSV. We give the same vaccinations plus Pasturella a couple of weeks prior to weaning. The heifers get Bangs vaccinated after weaning. About a month before breeding, the yearling heifers get another shot of IBR-BVDPI3-BRSV. On the day the bulls are examined for breeding soundness, they get 8-way Clostridium and IBR-BVD-PI3-BRSV. We also give a wart vaccine to the bulls to reduce the number of penile warts. This herd has been on a modified live BVD vaccination program for many years, and it is pointless to test for persistently infected BVD individuals. We tested a couple of times and have never found even one in the herd.

**You can be sure that if a bull makes it to the sale on this outfit, he is fertile, healthy, functionally sound, and his performance data and EPDs are as accurate as we can make them.**

# About the Data

## EPDS (EXPECTED PROGENY DIFFERENCES)

EPDS ARE CURRENT AS OF 2/11/2022  
View current EPDs at [www.Angus.org](http://www.Angus.org).

**CED (CALVING EASE DIRECT)** This EPD is a direct expression of calving ease when the bull is bred to replacement heifers. In this case, the higher the number, the less calving difficulty. This measure is highly correlated with BW EPD. Breed average CED EPD for non-parent bulls is +6. Leadore's 2022 sale bull CED EPD average is +8.

**BW (BIRTH EPD)** The weight in pounds that this bull should add or subtract from his calves at birth when compared to the average of all Angus bulls in use in 1979. BW EPD has been shown to be nine times as accurate as birth weight in predicting size of calves from a bull. Breed average BW EPD for non-parent bulls is +1.2. Leadore's 2022 sale bull BW EPD average is +5.

**WW (WEANING WEIGHT EPD)** The weight in pounds that this bull should add to his calves at weaning when compared to the average of all Angus bulls in use in 1979. Breed average WW EPD for non-parent bulls is +59. Leadore's 2022 sale bull WW EPD average is +63.

**YW (YEARLING WEIGHT EPD)** The weight in pounds that this bull should add to his calves at yearling when compared to the average of all Angus bulls in use in 1979. Breed average YW EPD for non-parent bulls is +105. Leadore's 2022 sale bull YW EPD average is +112.

**MILK (MILK EPD)** The additional weight in pounds that should be produced by daughters of this bull when compared to the average of all Angus bulls in use in 1979. Breed average Milk EPD for non-parent bulls is +26. Leadore's 2022 sale bull Milk EPD average is +29.

**\$W (WEANED CALF VALUE)** Index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size. Breed average \$W for non-parent bulls is +61. Leadore's 2022 sale bull \$W average is +72.

**\$F (FEEDLOT VALUE)** Index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires. Breed average \$F for non-parent bulls is +86. Leadore's 2022 sale bull \$F average is +87.

Sire and Dam EPDs

**INDIVIDUAL PERFORMANCE**  
**BIRTH WEIGHT** Actual weight of the calf within 24 hours of birth. Affected by calf sex, age of dam, feeding level, temperature during late fetal development and genetics.

**WEAN WEIGHT** Weight at weaning adjusted for days of age and age of dam

**WEAN RATIO** A within herd ranking of adjusted weaning weight. Calculated as the calf's adjusted weight divided by the average weight of the contemporary group within which he was raised to weaning. A ratio of 100 is always the average of the group.

**YEAR WEIGHT** Weight of yearling adjusted for days of age and age of dam.

**YEAR RATIO** A within herd comparison of all bulls tested based on their adjusted 365-day weight. A ratio of 100 is the average of the contemporary group.

**COW PRODUCTION**  
Reported as number of calves weaned and average WR and number of calves tested to YW and average YR. The current calf is included in average YR.

**DEFENDER**  
**TOUGH. CAPABLE. CLEVER.**

Why do we put so much effort into engineering the Can-Am® Defender? Why do we equip it with tough Rotax® engines featuring best-in-class torque? Why do we give it industry-leading towing and hauling capabilities? And why do we make it clever with versatile cargo solutions and much more? Well, why do you put so much effort at everything you do?

Because a job worth doing, is worth doing right.

# ANGUS<sup>GS</sup><sup>SM</sup>

Powered by Neogen GeneSeek

## FOR ANGUS. BY ANGUS.

Created by Angus Genetics Inc. (AGI) and powered by Neogen GeneSeek, our sale cattle have been tested with the first DNA profile designed specifically for Angus cattle, Angus GS<sup>SM</sup>.

Each marker is intentionally chosen from the Angus genome to drive the Angus breed into the future. It offers maximum accuracy for genomically enhanced EPDs at great value. Testing heifer and bull calves ultimately allows you to reap the benefits of faster genetic gain in your commercial herd. With Angus GS, it's all about you, our customer.

Trait	Progeny Equivalents
Calving Ease Direct (CED)	26
Birth Weight (BW)	23
Weaning Weight (WW)	27
Yearling Weight (YW)	23
Dry Matter Intake (DMI)	12
Yearling height (YH)	17
Scrotal Circumference (SC)	15
Docility (DOC)	12
Claw Set (CLAW)	10
Foot Angle (ANGLE)	10
Heifer Pregnancy (HP)	17
Calving Ease Maternal (CEM)	20
Milk	36
Mature Weight (MW)	15
Mature Height (MH)	9
Carcass Weight (CW)	15
Carcass Marbling (MARB)	11
Carcass Ribeye (RE)	17
Carcass Fat (FAT)	14

Make Angus GS work for you at [Angus.org/AGI/AngusGS](http://Angus.org/AGI/AngusGS) or contact your Neogen GeneSeek representative at (402) 435-0665.
